Annex

Dear colleagues,

At its sixth session, the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement called “on all actors to work together to enable the scaling up of financing to developing country Parties for climate action from all public and private sources to at least USD 1.3 trillion per year by 2035.”

In this context, Parties decided to launch, under the guidance of the Presidencies of the sixth and seventh sessions of the CMA, in consultation with Parties, the ‘Baku to Belém Roadmap to 1.3T’ (henceforth Roadmap), aiming at scaling up climate finance to developing country Parties to support low greenhouse gas emissions and climate-resilient development pathways and implement the nationally determined contributions and national adaptation plans including through grants, concessional and non-debt creating instruments, and measures to create fiscal space, taking into account relevant multilateral initiatives as appropriate; also requests the Presidencies to produce a report summarizing the work as it concludes the work by CMA 7.

As CMA 6 and CMA 7 Presidencies, we are honoured to have been entrusted to guide the development of the Roadmap, which we intend to undertake in an inclusive, participatory, and transparent manner.

To provide clarity on the process, we aim to convene a virtual consultation with groups of Parties to seek their views and expectations on the Roadmap. The secretariat will contact group Chairs accordingly to arrange the consultation in the coming weeks.

To initiate work as soon as possible, we would like to invite Parties, constituted bodies, the operating entities of the Financial Mechanism, climate finance institutions, observers and observer organizations, and other stakeholders, particularly from the private sector, to submit their views on the following questions via e-mail to climatefinance@unfccc.int by **21 March 2025**:

- (a) What are your overall expectations for the “Baku to Belém Roadmap to 1.3T”?
- (b) Which topics and thematic issues should be explored to inform the Roadmap, within the scope of the mandate?
- (c) What country experiences, best practices and lessons learned can be shared related to barriers and enabling environments; innovative sources of finance; grants, concessional and non-debt creating instruments, and measures to create fiscal space?
- (d) Which multilateral initiatives do you see as most relevant to take into account in the Roadmap and why?

Following consultations and submissions received, we intend to make available a workplan including structured outreach and engagement with Parties and non-Party stakeholders, which will take into account views expressed during consultations and written inputs received.

Finally, we remain available for inquiries and informal exchange with any Party or regional groups of Parties and can be reached through climatefinance@unfccc.int.
